

KLOve radio station benefits me as a local resident of my community because there is no local station that meets the need that Klove does. If Klove were to be displaced by an LPFM broadcaster programming like that on Klove would not be available at all in this area. I believe the service provided by KLove is in the public interest because of the positive message it puts out and by the opportunities it offers to hear uplifting music and programming. Please preserve this for us. WE can't get it any other way!!!
